

All the bass, half the space.

No room for a subwoofer? The Expressionist Bass features twin desktop speakers with subwoofers built right in. That's right, the bass is in the base of each speaker. Separate drivers deliver mid and high frequencies so vocals and details come through with brilliant clarity. An auxiliary input allows convenient connection of any MP3 player. Designed to complement contemporary computer and monitor styles, the Expressionist Bass brings music, movies and games to life.
